Why Cisco
At Cisco, each person brings their unique talents to work as a team and make a difference.

Yes, our technology changes the way the world works, lives, plays and learns, but our edge comes from our people.

- We connect everything – people, process, data and things – and we use those connections to change our world for the better.
- We innovate everywhere - From launching a new era of networking that adapts, learns and protects, to building Cisco Services that accelerate businesses and business results. Our technology powers entertainment, retail, healthcare, education and more – from Smart Cities to your everyday devices
- We benefit everyone - We do all of this while striving for a culture that empowers every person to be the difference, at work and in our communities.
